

Treccia Hair Extensions Care Guide

1. Brush your hair multiple times a day. Using the hand the brush is not in, put pressure on the base of the extensions. This will get rid of tension and pulling.
2. Use a professional oil or serum through your ends, once a day on dry hair.
3. It is important to use professional products. You should treat hair with a deep conditioning mask once a week. Make sure shampoo and conditioner used are sulfate/paraben free. Finally, if you use heat on hair, you should definitely use a heat protectant.
4. If you go in the ocean with extensions it's important to follow these steps: 1. Dampen hair with fresh water (if you can) 2. Put hair in a secure ponytail then braid the ponytail. 3. Rinse out the salt water as soon as possible after with fresh water. 4. Keep a deep conditioning spray in bag to apply after rinsing. 5. When home, shampoo and apply a hydrating mask.
5. If you have any questions, do not hesitate to reach out.
